**Subject:** RE: renewable energy

Dear Ms. Hetzel:

This is to acknowledge receipt of your email to our PSC Website Comments.

I am forwarding your email to our Docketing Department for handling. Your email will become a part of Docket No. 2008-196-E and will be posted on our website under this Docket.

Please let me know if you should require any additional information.

Sincerely,  
Deborah Easterling

**Subject:** renewable energy

I beg of the Commission to tap into the renewable energy resources available in S.C.  
It would cost less to build a Solar Power Plant than one Nuclear Plant. This state needs to come into the 21 century and pick up the slack. All we seem to do are the same old things. Is this state with the current year, 2008 or not??  
Time is of the essence and we now have terrific opportunities to make this state what IT COULD BE!! WHAT WE SHOULD BE!!  
I pray you oppose the "Drill Act Now." It's absurd. It would take 5-10 years to see a return on drilling for oil. It's not near an immediate fix. It's only a band-aid at best and would still make us dependent on oil. How old-school thinking.  
Our state must have a new mind-set on clean, renewable energy for our future and our childrens' future!!  
Carolyn Hetzel
